INDEX

Volume 91—July-December, 1917

AERONAUTICS

	Page
Ancestors of the Bird and Airplane	3
The Strength of Human Wings	32
Fighting from Balloons	50
Fighting in the Air	76
America's Biggest Flying Machine	200
U. S. Dirigible D.N. 1	225
"Pillows" as Airplane Targets	327
A Fire-Chief's Airplane	385
The Ideal Aerial Bomb	386
Will the Dinners of the First Trans-Oceanic Flight Be Hot?	425
A Life-Preserver for Aeronauts	439
The Charge of the Lightest Brigade	530
The Airplane to the Rescue of Storm-Tossed Mariners	538
The Zeppelins Are Coming! Hug the Ground	540
Protecting the Airplane with a Fire-Proof Coating	542
Air Scouts Learn to Sketch Battlefields	545
The New Blimp Type of Dirigible	546
Italy's Huge Bombing Triplane	688
Catapulting Seaplanes from U-Boats	696
Directing the Big Gun Fire from Airplanes	701
New Gun-Tunnel Airplane	709
Testing the Fighting Aviator	711
A New Map-Holder for the Aviator	728
Sixty Miles an Hour Is the Climbing Speed of Flying-Machines	744
Making a Safe Landing at Night from an Airplane	752
Fishing in the Air	803
A Biplane Which Crashed Through a Roof	838
Sixteen Airplanes Against One Destroyer	850
The Sun, an Enemy to Airplanes	857
Testing Airplane Engines at Factory	861
Dummy Airplane Targets	866
Commuting by Airplane	879
Our Aviation Problems	894
Aviators Now Can Carry Their Telephones Under Their Hats	907
Testing Airplanes in a Man-Made Storm	910

AGRICULTURAL SCIENCE

Guinea Pigs Were Once Cultivated Like Chickens for Food	27
Making the Cow's Tail Behave with a Trolley Restrainer	27
A New Corn-Husking Machine	60
A Garden in Which Weeds Are Not Only Tolerated but Cultivated	61
To Make Your Lawn Attractive You Must Edge It Evenly	89
An Adjustable Rake for the "Land Patriots"	90
Silo Roof Opens Like Umbrella	106
Take Good Care of the Eggs This Year	167
Growing Mustard and Water Cress on Blankets	204
Plowing and Pulverizing the Soil in One Operation	205
Soya Beans, a Substitute for Meat	206
Studying the Effects of Calf-Foods by Means of Photographic Records	253
The "Pretty Maids" of a Chinese Window Garden	269
The Stationary Fruit Net	273
To Prevent a Colt from Becoming Tangled in Halter Rope	288
An Old Cake Tin Makes a Good Watering Pan for the Poultry Yard	300
A Plumbing System for the Farm Residence	305
Watering Plants Drop by Drop	354
Subduing the Cow's Tail	388
The Latest Tree-Trimming Ladder	407
A Tin-Pan Orchestra to Scare the Birds Away	430
A Stylish New Coat for the Baby Lamb	507
The By-Products of the Grapefruit Obtained from the Culls	555
A Little Bit of Egypt on a California Ostrich Farm	570
Let the Birds Save a Billion Dollars a Year	588
Sowing Tree Seed in the Snow	588
Gold-Plated Teeth for the Sheep Is Common in Scotland	591
Keep Livestock Away from Railroad Tracks	644
A Spading Machine Which Makes Patriotic Gardening Worth While	685
A Pig Carries His Own Pen	698
A Portable Alfalfa Mill	698
A Homemade Plow	706
Providing a Treat for the Birds in Cold Weather	728
Grooming the Horse with a Vacuum-Cleaner Mitten	746
This Is the Way They Plow in Porto Rico	750
Hatching Chickens in Glass Globe by Electricity	806
The War Gardens of Railroad Employees and Station Agents	893
His Majesty, the Turkey	902
Cattle-Guard Made of Cactus	905
Raising Terrapins on the Farm	906
Consider the Rat	916

ARCHITECTURE

The Door to This Siberian Home Is Located on the Roof	101
Circular Farm Garage Built with Silo Forms	187
Roadtown—The Commuter's Utopia	188
Unique Shelter for Garden Entrance	292
Making a Durable Playhouse for the Children	300
How Sound-Proof Rooms Were Built	329
Star Spangled Banner in Brick	382
Like a Spider in His Web	561
This Store Sets a New Style in Exterior Decoration	671
Trees in the Forest One Week—Houses the Next	735
A Folding Staircase for the Fire Escape	839
House Numbers in Concrete	875
A Miniature Hotel with Two Thousand Rooms	878
A Chimney with Windows	892

ASTRONOMY

How the Sun Looks in the Arctic Circle	164
What's on the Moon?	256
A Laboratory Two Miles in the Air	401
How Old Is the Earth?	747
A Parsec—The Greatest Unit of Measurement	807
Chained to Our Earth!	835

CHEMISTRY

A Suitcase Laboratory for the Laundryman	7
Whiskey from Jam and Potatoes	72
Mixing a Durable Water Color Aluminum Paint	300
Manufacturing Prussian Blue from American Product	303
The Chemical Wealth of Some of Our Lakes	407
The Hottest Heat	414
Buttons Are Now Made as a By-Product of Beer	517
Getting Sulphur Without Liberating the Fumes	671
Indigo from Michigan	702
Powder Gases Wash Away Steel Guns	754
Making Money Out of a Nuisance. The Industrial Rise of Acetylene Ash	848
Oleomargarine Glorified	877
Sausage Made from Cottonseed	909

CIVIL ENGINEERING

Making Paving Machinery from Odds and Ends	597

Why a Sidewalk Was Built on the Top of a Storm-Sewer Tunnel ... 746
Building a Park Around the Debris of a Burned-Down Schoolhouse ... 722
Two Billion Paving Bricks a Year ... 855
Measuring the Flow of Rivers ... 867

ELECTRICITY

Electrified Street Directions ... 33
An Effective Burglar Alarm ... 49
Cooling a Room with Cold Water ... 62
An Electric Machine for Cutting Uniforms ... 71
Newspapers in the Sky ... 104
A Telephone Attachment Which Performs the Services of a Watch Dog ... 105
Seal Your Letters by Electricity ... 114
Applying Insulation to Splices Made in Electric Wires ... 147
A Simple and Easily Made Electric Battery Motor 147
Rebuilding Worn-Out Dry Battery Cells ... 148
Method of Insulating Secondary "Pies" in Transformers ... 149
Steadying Voltage of Dynamo Driven by Gasoline Engine ... 150
Increasing the Voltage of a Dry Battery ... 150
Keyless Lamp Socket for Switching Electric Currents ... 151
The Effect of Electricity and Music on the Human Organism ... 152
A Rain Alarm Made of a Broken Electric Globe .. 152
Protect Yourself Against Highwaymen with an Electrified Cane ... 191
An Electric, Self-Winding Clock ... 222
A Light for Luring Fish ... 233
The First Life-Long Flashlight ... 240
A Flashlight Attached to Your Razor ... 251
An Electric Cord for the Sash Curtain ... 280
Simple Oscillograph to Record Current Alternations 284
Reversing Rheostat for Controlling a Small Motor 309
A Drip-Pan Alarm for the Ice-Box Drain ... 311
The Electric Stevedore ... 328
Telephoning from a Trolley-Car ... 353
The Ben Franklins of Today ... 363
The Electric Manicurist ... 400
Increasing England's Crops by Electricity ... 421
The Price of This Kiss Was Death ... 432
A Method for Recharging Dry Cells ... 442
His Lighting Bill Is Twenty-five Cents a Month .. 536
"Do It Electrically" Also Applies to the Barber .. 538
Using Resistance in Field Wiring on Automobile Dynamo ... 606
Connecting a Spot Light in an Automobile Dynamo Circuit ... 613
Electric Lamp Attached to a Spoon for Tongue Depresser ... 618
This Electric Heating Faucet Has No Switch or Coils 668
An Electric Wire in the Street Ignites a Balloon .. 670
Using an Electric Heater to Dry the Glue on Envelopes ... 672
Announcing the Election Returns by Telephone .. 740
Making Telephones and Phonographs Clearer 745
Click! Click! Go These Electrically Operated Scissors ... 748
Telegraphing by Typewriter ... 756
Automatic Cut-Outs for Charging Storage Cells .. 789
A Practical Electric Vacuum Cleaner ... 791
Making an Electric Furnace for the Laboratory .. 792
Testing Electric Wires for High Tension Currents. 797
Resistance in Circuit to Make Double Tone Automobile Horn ... 797
Making a Selenium Cell for the Laboratory ... 799
A New Way of Oiling Machinery by Electricity .. 825
Illuminated Muffs ... 881
Combining an Electric-Elevator with the Shoe-Shining Chair ... 888
Applying the Principle of the Phonograph to the Telegraph Sounder ... 889
Reducing Packing Costs in Handling Telephone Sets 908
A Telephone Conversation May Be Almost "Private" Nowadays ... 913
Telephone Conversation Made Easy by a New Device ... 919
Charging Storage Batteries with Direct Current .. 947
Simple Method of Making Storage Cells ... 947
Auto-Transformer in Headlight Circuit on a Magneto ... 952

Page

Making a Good Outdoor Ground to a Pipe ... 952
Finding the Combined Value in Parallel Resistances 959
Heating a Soldering Iron with an Electric Arc 960

HOUSEKEEPING MADE EASY

Save Your Bottles. A Shortage of Jars and Cans Is Threatened ... 37
Not Even the Space Underneath This Desk Is Wasted ... 37
A Machine for Ironing Stockings ... 49
Household Appliances ... 52–53
A Tea-Making Machine ... 66
Using Your Player Piano as a Vacuum Cleaner ... 72
Changing the Apartment Telephone into a Pay-When-You-Call System ... 86
Alarm Which Tells You When Your Bathtub Has Been Filled to Whatever Depth You Desire ... 87
Combining a Strainer with the Bung of a Barrel .. 90
Making the Kitchen Range One Hundred Per Cent Efficient ... 111
A Clever Bottle-Opener ... 190
Co-operative Kitchens to Solve the "High Cost" Problems ... 198
Children May Write on These Walls Without Fear of Punishment ... 204
An Electric Fan Runs Without Electricity ... 217
Household Appliances ... 238–239
Keeping Out Flies When You Open the Door 260
Household Bookless Bookkeeping on the Poker-Chip Principle ... 267
Put Your Flowers Outdoors on this Adjustable Window Shelf ... 271
Hanging Backing Cloth for Wall Paper ... 283
A Double Deck Revolving Clothes Hanger for a Yard ... 287
Iceless Refrigerator Using Evaporation for Cooling 289
Sterilization Is the Essential Factor in Canning Vegetables ... 290
The Burlap Cooler ... 351
Scrub Your Walls by Machinery ... 360
Housekeeping Made Easy ... 372–3
An Approved Smoker's Kit ... 410
A New Attachment to Hold the Trousers in Place 420
A Handy Clothes Closet for Your Vacation ... 424
The Clam-Shell as a Decoration ... 435
That Bit of Butter Left on Your Plate—What Becomes of It? ... 519
This Vacuum Cleaner Is Used Like an Ordinary Broom ... 519
Housekeeping Made Easy ... 552-553
Fountain Spot-Remover Works Like a Scrubbing Brush ... 568
An Owl with Eyes of Scissors and Backbone of Paste 576
You Can Roll This Can Without Spilling the Garbage ... 593
A Wooden Lighthouse Candlestick and How It Is Made ... 600
Sending the Wash to the Laundry Through a Glass-Lined Chute ... 664
The Full Dinner Pail ... 669
An Accommodating Gas Stove ... 670
What to Do with That Dripping Umbrella ... 671
Keeping Your Neckties Smooth ... 672
New Can-Opener Which Does Not Destroy the Can 679
Housekeeping Made Easy ... 694–695
A Necktie Rack ... 702
Cook Over the Gas Lamp ... 721
Making a Window Seat Out of the Radiator ... 725
Dry Your Fruits and Vegetables at Home ... 736
Carry Your House Key in Its Own Bag ... 736
The Kitchen Cabinet Up-to-Date ... 742
The Temperature Alarm ... 747
Keeping the Shampooing Soap Suds Out of Your Eyes ... 804
Storing Needles and Thread in the Handles of Scissors ... 828
Solving Kitchen Problems Electrically ... 830
Abolishing the Garbage Can ... 833
Rocking the Baby Fore and Aft ... 842
New Shoe-Polishing Kit ... 857
Improved Office Appliances ... 870
Electric Fish-Scaler ... 873
Baby's Wheeled Dressing Table ... 877
Housekeeping Made Easy ... 890-91
A Pelican in Your Wardrobe to Hold Your Coat .. 904
Want to Go to the Attic? Just Pull Down the Stairs 912

MECHANICAL ENGINEERING

This Typewriter Prints in Every Type and Language 5
Is Your Typist a Rapid Operator? This Machine Will Time Her 25
Big Steel Guns and How They Are Made 38
Typewriting in Code 59
Mechanical Appliances 74–75
A Cushioning Drawbridge Gate 80
A Safety Coat for Workmen 96
The Last Word in Fountain Pen Efficiency—An Eraser Attachment 97
Removing Iron Rivets with a Pneumatic Hammer 97
With the Warm Weather Come Improvements in Ice-Cream Making 100
Safety Nets of Rope for Skyscraper Workers 114
Largest Indoor Waterfall 166
A Street Cleaner Built Like a Carpet Sweeper 203
Mechanical Appliances 210–211
A Coal Mine in His Cellar 215
Repairing Flag Pole Without Steeplejack 216
Canning Beans by Machinery 221
A Portable Elevated Saw 228
A New Addressing Machine 234
A Conveyor for Loading Coal 237
A Self-Propelling Sprinkler 240
A Mechanical Bank Teller 245
The Needle Bath in Shell Making 248
A Portable Nail Distributor 249
The Evaporation of Water Drives This Remarkable Clock 254
One Horsepower Will Run All the Watches in the World 261
A Small Sand Spreader Is Useful All the Year Round 263
Panning for Gold in Central and South America 264
The Compressed-Air Orchestra 265
The Efficient Garbage Collector 397
Mechanical Kinks 398–9
A Machine for Reclaiming Scrap Material 410
Three Roadmaking Machines in One 421
A Time-Saver for the Repairman 425
Standardizing the Die-Sinker 440
Gear Wheels Made of Cotton 517
Steam Jets Which Save Thousands of Dollars in Large Power Plants 523
Do It with Tools and Machinery 534-535
Stamping Two Thousand Letters an Hour 537
A Substitute for Forms in Concrete Roofs and Floors 543
An Iron Worker's Steel Glove 544
How One Furnace Can Save a Big Slice of the Country's Coal Bills 564
We Burn Coal Lavishly, but We Have Plenty to Burn 567
Making a Fortune Out of Cement Factory Dust 569
Blowing Stumps Away with Air 576
Welding Ten Miles of Pipe for a Skating Rink 584
Drilling with This Electric Drill Is Like Shooting a Pistol 593
Let This Automatic Device Feed Your Envelopes 593
The Overdriven Nail and the High Cost of Living 543
Potted Plants as a Part of a Plumber's Equipment 548
Perfect Bread Slicing Machine for the Commissariat 645
Fastening Motors to Ceilings Without Scaffolding 673
Weighing Your Coal by the Ounce or the Pound 686
A Device for Handling Rugs 699
A Simplified Gasoline Engine 704
Stamping Oranges 705
Extinguishing Flames of a Gas Well 708
Mechanical Appliances 718–719
The Most Ornamental Smokestack in the World 734
How the Cellar Shut-Off Nozzle Originated 740
This Furnace Practically Takes Care of Itself 742
Any Boy Can Build a Concrete Wall 745
Whirling Concrete Poles into Shape 749
Fire Doors That Close Themselves 750
Sorting Letters with Gravity Chutes 752
A Valveless Pump for Gearset Grease 753
Cutting Sheet Metal with a New Machine 757
Handling Cotton Bales with an Over-Head Trolley 757
The Giant Crane of the Austrian Navy 758
A Jeweler's Ruse 760
A New Siphon That Starts Itself Without Suction or Pumping 832
Turning Valves on Their Seats Automatically 859
Furnace Burns Soft Coal and Cleans Its Own Radiator 867
Largest Direct-Current Power Plant 868
Improved Mechanical Appliances 871
Running the Oven by the Hot-Air Furnace 879
Making Flour from Pigskin 882
Barking Wood by Machinery 885
A Dipper Dredge That Served as a Drydock 893
Two Locomotives to the Aid of a Shivering Manufacturing Plant 899
Doing the Work of Three Hands with Two, on a Soldering Job 900
Which Way Will the Tree Fall? 901
New Looms for Old—A Wartime Necessity 904
A Collapsible Concrete Form Which Works on the Principle of an Umbrella 905
The Smallest Bandsaw 907
Another Biggest Thing in the World—This Time a Riveting Machine 913
Hot Water in an Instant 920

MEDICINE, SURGERY AND HYGIENE

Be Thou Wary of the Bubbling Cup 86
The Hospital Toothbrush—It Has a Removable Pad 95
The Private Hairbrush—The Bristles Can Be Locked Up 95
The U. S. Armies Prepare to Fight Germs 106
That Wad of Dental Cotton—Was It Sterilized? 107
An Ice Helmet to Relieve the Fever Patient 115
Separating Russian Prisoners from Vermin 119
Chiropodists for the Army 164
A Holder and Sterilizer for the Toothbrush 205
Gigantic Models of Mouths 221
A Single First-Aid Dressing 235
How Policemen Revive You When You Faint 237
The Feet and Legs of American Citizens Are Unsound 263
Closing Up a Wound Without Using a Surgeon's Needle 269
Feeding Germs on a Special Diet 270
Inducing Artificial Respiration with a Vacuum 350
A Device for Supporting the Arch 385
The Dental Hygienist 387
A Spring-Motor for the Human Jaw 408
A Treatment for Distemper in Dogs 434
If You Lisp or Stammer Use a Mirror or Candle 484
A Self-Inflicted Tug-of-War to Increase Your Height 484
Combination Knife and Fork for the Wounded 485
Choosing the Air for Our "Castles" 503
A Crutch Built on the Principle of the Rocking Chair 523
The Army Medical Museum's Giant Skull 551
The Massaging Chair 564
A Huge Barber-Shop Sterilizer on Wheels 583
This Death's Head Poison Bottle Will Prevent Fatal Mistakes 594
Bomb Exits for America's First Portable Hospital 596
Fat People Are Unpatriotic 645
Medical Men in the Army 685
Open Your Mouth and Let the Doctor Flashlight Its Interior 687
Preventing Typhoid 706
Testing the Fighting Aviator 711
The Best Night Light for the Sick Room 729
A Medical Battery No Bigger Than an Ordinary Flashlight 731
How About That Third Cup of Coffee for Breakfast? 734
Train Your Skin So That It Will Not Be Sensitive 744
Artificial Lungs for New Born Babies 807
It Bathes, Massages, and Dries Us 832
The Old Indian Priests Had No Easy Time of It 837
Toe Spring for Enlarged Joints and Bunions 838
A Disappearing Crutch 854
Curing Wounds with Sugar 867
Fracture Setting Machine 875
Employing Destructive Gases in the Warfare Against the Sleeping Sickness 888
Using Brine Baths as a Cure for Shell Shock 899
Examining Recruits for Tuberculosis 909
Treating the Wounds of the War by Electricity 918
